

To download the Comic Life software go to [www.plasq.com](http://www.plasq.com). Click on the DOWNLOAD icon. Once the software has downloaded, launch the program.

You can start with a thirty day trial OR (better yet) enter the licensing information as shown below.

Serial Number Name: **Pamela Richau**

Serial Number: **comicl001-BF00-T06C-JCEV-N4LB-W4DF**

Thanks to the “recycling Fund” of Lockwood School and community, we have a new piece of cool software for kids and teachers. Comic Life makes creating “digital collages” a snap! Use Comic Life to produce high quality photo collections with customized captions and titles. There’s no end to the many ways you and your students can explore your classroom creativity with Comic Life. It’s the digital answer to scrap-booking.

For an introduction to the Comic Life software, I have included a help sheet and an introductory lesson. This lesson will get you into the program and also allow you to revisit United Streaming, our online subscription for copyright free video and images.

Your assignment:

Create a collage by choosing a template, adding lettering and adding 2 “talking bubbles”. The theme of your collage is “Daylight Savings Time, the Best of Times or the Worst of Times”. Images can be downloaded at

<http://www.unitedstreaming.com>. Some search suggestions to find images could be sleep, sun, clock or yawn.
